Mayor Weaver asked for a motion to approve Firehouse Subs Public Safety Foundation Board of Directors has awarded City of Glennville Fire Department the requested Hurst Combi Tool & Accessories Grant valued up to $17,080.12. A motion was made by Councilmember Waters, seconded by Councilmember Janeczek and passed unanimously.

## XIII. COUNCIL COMMENTS

Councilmember Miller stated that she wanted to thank everybody for being here and those that are online. I don't know why council didn't vote on the project for the LMIG grant, but it's okay. I just want you to know that it's it is well.

Councilmember Nobles stated he would like to thank our fire department. Seems like we've made a lot of progress lately. Getting new fire truck, upgrading our equipment, and thought about thanking everybody involved. I know you're putting a lot of time and work, and it's very much appreciated.

Fire Chief Scott Terrell stated we started this morning. Captain Terrell and the firefighters took to South Elementary School this morning. They've also got another appointment on 19th at the Head Start. From the past fire safety week, that's where they wanted to plan it, so they've already scheduled out. We usually do one a week somewhere here in October. Also speaking of the grant, the past since July, we applied for numerous grants. We got the Canoochee Grant, which was a five-thousand dollar

grant. Deputy Chief Willis went above and beyond, working on getting this firehouse sub grant. This a very time-distinct grant. You got to be on your toes to get it. He was very diligent, like up here at the fire station at seven o'clock that morning, trying to be ready to punch the numbers. Time it opened. That's going to help us dramatically with just getting the new hearse tools we just got. This another piece to complement the same e-drones we got. Also, we took delivery on the 13th of the truck we purchased from FireTech, the 2013 model. It arrived the 13th out here. The 14th we put it in service, so it's already ready to go. We got some of the lettering put on it, but it's not completed yet. Lamont's Designs is doing our lettering, and he said he'd have everything finished by next week. Other than that, as far as we got going right now.

## XIV. EXECUTIVE SESSION, IF NEEDED

Executive session not needed.

## XV. PUBLIC COMMENTS:

This is the time we set aside for our citizens to comment on matters. We welcome and appreciate your comments or suggestions. Our purpose is to listen to what you tell us, and we will certainly take any comments you make under advisement. We do not answer questions at this time, nor do we reply to your statements at this time. The reason for this is that an individual council member cannot and should not attempt to commit the entire council to any position, and the council should not respond until it has all the information available on a specific matter.

**Ground Rules:**

- To be placed on the agenda, you must make your request to the City Clerk or City Manager by noon on the **Thursday** prior to the meeting. If a holiday falls around the meeting date, the deadline will be noon on **Wednesday** prior to the meeting day.
- Your comments are limited to five (5) minutes.
- If you have a complaint about an employee of the city, please discuss it with the City Manager first. The City Manager will advise the Council of the matter, and an executive session may be scheduled to discuss personnel issues.
- You should avoid making any slander or defamation of someone's character or reputation. If such comments are made, there can be legal consequences that follow since this is a public meeting.
- We prefer that you address matters that this council has the authority to deal with.

Samuel Swindell

Let him be the husband of one wife. So, you women, you women pastors, have a problem right there. And other articles were written. The next thing I've seen was the articles was written that someone said that how can anyone who is a Christian can do business with unbelievers? And they went on to say, oh, what a derogatory comment. Well, the Bible says in First Corinthians six seventeen, "Come out from among them and be ye separate," saith the Lord thy God. I guess they might claim that is a derogatory comment, also. And I see churchgoers going to liquor stores. Does that make that a fine place to be, or does that make the churchgoer look bad? And I see also seeing where people were raising money for this or that, and raising money for this and

that. Oh, what a fine individual that he is! Raise the money. Don't make an individual find it. You might need to give him a start, but outside of that, they holler discrimination and discrimination. I see buildings with little pictures, people with pictures on it, and underneath them there are sayings and of names underneath the thing. But there's no depiction of Jesus Christ and what He said. You must be born again, and except you repent, you shall all likewise perish. I don't see that. That's discrimination against my Savior. And to the ministerial associations around, he's standing up for unbelievers that that wouldn't stand for you. If you think that the unbelievers would stand for you on your Christian faith, then you a special nut at the bottom of the basket. Amos chapter three verse three says, "Can two walk together except they be agreed?" No. What hath fellowship light with darkness? If there's fellowship light with darkness, there must be a buck involved somewhere.
John three eighteen says, He that believeth on Him is not condemned, but he that believeth not is condemned already. That's Jesus Christ. The Bible says, If any man perish, preach any other gospel than that which I have preached unto you, which is Jesus Christ. Let him be accursed. There are four thousand two hundred world religions and only one empty tomb. All the other religions, they are worshiping a dead god that they are serving. Acts four twelve says, Neither is there salvation in any other. For there is no other name under heaven given among men whereby a man must be saved than the name of Jesus Christ. And then people say, "Oh well, you're supposed to love them. You're supposed to love, yeah. You know what kind of love the Bible's talking about? The love the Bible's talking about is to tell them about Jesus Christ to keep them out of hell. That's the kind of love, not buddy, and put your hand in the money pot with them. Name one city in America. Name one city in America that has elected an atheist, an agnostic, a Buddhist, or a Muslim, or any other non-believer, that where they're not losing their Christian liberty and their freedoms. The people who want those kinds of politicians elected must have their hand in the money bag somewhere. Regardless of where I live, I will never be a traitor to the Lord Jesus Christ, to my nation, to my state, or to my city in which I live that goes against Christianity by voting in an atheist, an agnostic, a Buddhist, or a Muslim. Why? Because you lose Christian freedom and you lose Christian liberty. And if you ever elect one a Muslim or a Buddhist or nonbeliever or an atheist or anything here, you will be saying pledge allegiance to that flag, and you will not be praying in the name of Jesus Christ. But you'll be praying, if you pray at all, to a God that is burning in hell as we speak, and you will wish you had a recall then. And I also heard an excellent statement yesterday, if you tolerate Islam, Islam will grow, and when it grows, it will not tolerate you. And the Bible says in First John 5:13, "These things have I written unto you that believe on the name of the Son of God, that ye may know that ye have eternal life that believe on the name of the Son of God." You want to go to heaven when you die? Acts sixteen thirty-one believe on the Lord Jesus Christ and thou shalt be saved. Y'all have a good night.

Zuber Malek

Evening, everyone. Wanted to bring in two main things. Wanted to just discuss two main things. What we already have in the toolbox workshop, which we used to do, I think it has stopped for a year. So wanted to know when we're going to be resumed. The workshop used to be. It was a more transparent, good tool for everybody to know. I think the last one we had was probably last September. It's been a year. So, when we are planning on installing that, the next thing we have is a ethics committee. So, the ethics committee is there. Something we are using it, or is just to

there to check in the box, because I think the ethic committee was formed back in 2014, and they never met for last 12 years until this May. There was the first time they ever met, and even at that time, they did not know what the rules are, what the basic ground is. So that's something. Are we going to have a better charter? We're going to make anything.
Is a work well. It can be useful because we have a great tool, but it's never been used. So those are the two things I want to bring up to the mayor and council, like how we can use those both tools put back in the work, workshop and ethics committee. Those are the two things I want to bring it to your attention. Thank you.

JoAnn Anderson

As I prayed, the word came to me from my Lord and Savior Jesus Christ. That's in Galatians 6. Do not get weary in well doing, for if you faint not, you will succeed. I will not fall weary in my well doing. Good evening, Mayor Bernie Weaver, members of the City Council, and citizens of Glendale. I stand before you once again, and because the people. Exposed in that infamous video from April 2026, still occupied their seats in this city government. After becoming aware of the actions and words captured in that video, I, along with other outraged citizens, began asking for one simple thing: accountability. We asked those involved to acknowledge what happened. We sought accountability through proper channels. We looked to city ordinances. We asked for reprimand. We spoke publicly. We continued showing up, and yet.
Nothing seemed to phase them. So now, because the accountability has not come voluntarily, citizens have exercised other rights available to them, recall. But that has raised another troubling question: Where are we supposed to turn when the very process available to citizens become obstacles? City Clerk Michelle Davis and City Attorney Andrew Johnson are supposed to be resources in conducting the business of this city. None of us have ever undertaken a recall before, so we did what responsible citizens are supposed to do. We studied the state requirements, we asked questions, we tried to follow the law and the process. Yet we encountered excuse after excuse and delay after delay. Even other, even something as basic as obtaining a number. Necessary to proceed, we were told by City Attorney Johnson that he could not help us at all. Let me make something very clear: the citizens of Glenville are not outsiders to our own government. This government belongs to the people. The salaries paid by this city come from the people. Public office exists to serve the people. City employees and elected officials are not here to protect. A select few from public accountability. Sometimes it appears that facts has gotten twisted. That certain officials operate as though their responsibility is primarily to the mayor and certain council members, rather than to the citizens and the lawful processes of this city. We have submitted two recall applications, each supported by more than the required number of signatures. When the first application was rejected.
We did not quit. We went back. We studied. We made the corrections. We crossed every T and dotted every I. And now, once again, we are being told that requirements demand strict adherence to the statutes. If strict adherence to the law is the standard, then let strict adherence to the law be the standard for everyone, not just for citizens seeking accountability, not just for. For citizens signing petitions, not just for citizens challenging people in power, everybody, we are not stopping. We are not going away. We are not surrendering our right to demand better government because the process becomes difficult. I consider these obstacles and roadblocks to be tricks and schemes meant to discourage us. But this cause is too important to abandon.

The citizens of Glenville still deserve leadership rooted in integrity, fairness, accountability, and respect for the people. So, to those who believe that delay will defeat us, that technicalities will silence us, or that citizens will eventually become tired and disappear, you underestimated us. And to those who continue to sit smugly and comfortably in their seats, believing that those seats belong to them. Enjoy the comfort while you have it, because elected office is not a throne. The seat belongs to the people. The day of reckoning through lawful, democratic accountability is coming. That April video reveals more than words spoken. When some people apparently thought that the public was not listening, for many citizens, it reveals something about judgment, leadership, and character. And once the people have seen something with their own eyes, you cannot demand that they unsee it.

We gave you an opportunity to do what we believe was right. We asked for accountability. We sought reprimand. We followed the ordinances, and now we are pursuing recall through a lawful process available to citizens. We will not keep. We will keep showing up. We will keep speaking. We will keep organizing. We will keep following the law. Right is right. Wrong is wrong. Thank you.

## XVI. ADJOURN

With all items being handled, Mayor Weaver adjourned the meeting.

### AFFIRMATION

We affirm these minutes are correct and true to form as presented to the Mayor and City Council on Tuesday, November 03, 2026.

Bernie Weaver

Bernie Weaver, Mayor

Michelle B. Davis

Michelle B. Davis, City Clerk
